## **Submission Check List**

We have made for your convenience a checklist to be sure your submission is properly completed. . .

1. I downloaded the **Competition Form** from the same page that I downloaded the **Guidelines for Submission** information form.
2. Since there **are not 9 things on this Checklist**, and **there is no mailing address**, I know I have to download the proper form to Submit correctly **because this is not the proper form.**
3. I will find the button to download the **Competition Form** right next to the button I pressed to download this form.

Thank you, we not only look forward to your entry into the Collector's Choice Competition, but hope this aids in a proper submission.
